unknown:All compatibilities are invalid, Item not listed.

1. Reason

1) The site or category set in the datasheet is inconsistent with the Fitment Profile, as shown in the following picture?

The screenshot shows a software interface for managing eBay listings. At the top, there are five tabs: Listing Basic, Item & Price, Shipping & Returns, Descriptions, and Photos, all of which are marked as valid (green checkmarks). Below these tabs is a 'Listing' section with fields for eBay Acct, Title, and Site. The 'eBay Cat' field is highlighted with a red box, showing '33645 > Grilles'. To the right of this field are 'Search' and 'Shop Cat' buttons, with '75424427013' listed. The 'eBay Cat.2' field contains '0'. There are two radio button options: 'Custom' (selected) and 'Profile' (set to '0001'). The 'ItemCond.' field is set to 'New'. The 'Cond. Remark' field is empty.

2) The content of the Fitment Profile has expired. If the creation time is so long or the copied Fitment Profile is old, it will be affected;

3) This category does not support Fitment Profile, so it cannot be applied.

2. Solution

- 1) If the site classification is inconsistent, you can re-select the Fitment Profile of the same site and classification;
- 2) If the Fitment Profile has expired, you can go to "Channels > Channel Setting-eBay > Fitment Profile" to recreate or copy a Fitment Profile. For detailed operations, please refer to the tutorial: <https://www.soldeazy.com/support/article.php?id=179>
