1. Only orders with top-up in the corresponding currency can be purchased. Please create a new wallet and top up the amount beforehand.
2. If there is already a package record on the order, the purchase button will not appear. To purchase a shipping label directly, please delete the package.
3. Only orders with a "Paid" status can purchase a shipping label directly. If the current order has been shipped, you can use the duplicate function to create a new order record, mark it as paid, and then purchase the shipping label.
