Check out the Merchant FAQ for more information on how to upload your products and keep these policies in mind as you list and describe your products:

- Listing titles, descriptions, and photos must align to accurately present the item being sold at the indicated price.
- Multiple products may not be sold separately in one listing. You may group items as a set into a single listing if the items are being sold and shipped together.
- The unauthorized use of images and phrases which infringe on Wish's or another party's intellectual property include copyrights or trademarks is strictly prohibited
- You may not use Wish to direct shoppers to your own or another online selling venue to purchase the same items as listed in your Wish shop, as this may constitute fee avoidance. Directing Wish buyers outside of Wish negates the merchant's partnership with Wish.
- Changing the product associated with a listing is strictly prohibited. Titles and first images may not be eligible for modification, so choose carefully.
- All listings on Wish must be for a tangible object. The following are examples which violate this policy:
 - A listing may not be created for the sole purpose of sharing photographs or other information with the community.
 - A listing may not be created solely as an advertisement. This includes notices of sales or promotions in your shop.
 - Items must not be listed as available for rental or lease.
 - A listing must not be conditional upon the purchase of another listing in your shop (for example: saying "this item may only be purchased along with another item in my shop" is not allowed). This includes listings for item upgrades, shipping upgrades, and gift wrapping upgrades.
