Fault:eBay server did not response

Fault:eBay server did not response

Reason: The content is considered as garbled text.

You must find where the place is.

1. Delete return policy and verify.

2. Check Description 01.

2.1 Open Description 01. Click  (original code , upper left corner). Copy and cut the content. Then click OK.

2.2 Open Description 01 again. Paste the original code directly to the Description. Click OK.

2.3 Open the Description 01 again, click OK.

2.4 Save and Verify. Or just sync up

Caution: Click “Original Code” for the first step; confirm the text edited for the second and third steps.
