2018-09-28 system update notice

2018-09-28 system update notice

1. Power Clone: eBay API translation now supports item description HTML translation

   **Only HTML contents in online listing description will be translated and put in "Original HTML" in datasheets, listing template and desc01 will not be translated.
   **After Plower Clone, user must enable "Original HTML"(disable listing template) in datasheets manually to see the translated contents.
