2018-11-01 system update notice

2018-11-01 system update notice

New Features

1. Datasheet: PowerClone function now supports eBay corridor expansion program
2. ShipEazy: added booking pickup function for DHL Taiwan

Changed

1. Job Manager: when a job is finished, the total number of records processed will be shown next to job status.
2. Template Designer: image editor for Shop Banner now has Chinese version and user can select which version they want to keep
