V. Soldeazy Attribute Table

The screenshot shows a software interface with a sidebar on the left and a main content area on the right. The sidebar contains several menu items: '布局风格' (Layout Style), '主要设计' (Main Design), '工具栏' (Toolbar), '产品资料' (Product Information), and '手机模板' (Mobile Template). The '产品资料' item is highlighted with a red box. The main content area is divided into two sections: '设定' (Settings) and '内容' (Content). Under '设定', there is a sub-section '产品描述部分设置' (Product Description Part Settings). Under '内容', there are several options: '产品文字描述框' (Product Text Description Box), 'eBay产品属性' (eBay Product Attributes), '自订产品属性' (Custom Product Attributes), '图片横幅' (Image Banner), '巨型交叉销售框' (Giant Cross-Sell Box), and '刊登内设定的图片横幅' (Image Banner Set in Listing). The '自订产品属性' option is highlighted with a red box and a blue arrow. To the right, a preview window shows a table titled 'Attributes Table' with a width dropdown set to 'Full Width'. A hand cursor is pointing at the table, and a red arrow points from the '自订产品属性' option to the preview. Below the preview, there is a blue text note: '更改现有功能框“宽度”，需先删除原有的功能框，并重新加进模板内。' (To change the width of the existing feature box, you need to delete the original feature box and add it back into the template.)
