Subscribed SoldEazy store template for eBay store/shop, done design and applied to eBay, but store front did not change?

Subscribed SoldEazy store template for eBay store/shop, done design and applied to eBay, but store front did not change?

Subscribed SoldEazy store template for eBay store/shop, done design and applied to eBay, but store front did not change?
This is because SoldEazy's store template can only be applied to an old version of eBay store, user has to downgrade a store in order to apply the store template

eBay store version upgrade/downgrade steps:

Upgrade:

1. Go to http://www.pages.ebay.com/storefronts/update/

2. Click "Preview Store"

3. Click "Publish"

Downgrade：

1. Go to http://www.pages.ebay.com/storefronts/update/

2. Click "Preview Store"

3. Scroll down to find "edit store" then click

4. Click "revert to my old shop"

If you cannot find the "revert to my old store/shop" button, please click "Publish" first, then return to this page, you'll see the button and be able to click

Done~
