2017-11-09 How to remove HTTP content & external link & Active content from my listing?

???ID??: 68 | ??: ???? | ?????: Wed, Jan 24, 2018 2:54 PM

For removing HTTP content:

Please log in to SoldEazy system, go to Listing > Live Listing > Listing Maintenance

Listing ShipEazy Inventory T	Tools	Channel		
Live Listing	•	Listing Maintenance		
Catasheet	•	Without Recent Sales		
Business Profile		Listing Recommendation		
Attribute Class	Duplicated Listing			
Listing History		Listing without Stock		
SY US UE RV AU	Ť	Listing without Datasheet		
	4	Listing-Datasheet Inconsistency		
		Best Match		

Search for both active and hidden(out of stock) listings

Select all listings that you want to remove HTTP content from

Clock "Bulk SYNC" button, then make sure "Forcing HTTPS to all Image URLs in item description" option is checked, then click "Sync Up"

Live Listing

Are you sure to SYNC	the Price, Postage and	Quantity of the selected item
Sync Up with Galle	ery Pictures *	
🔲 Sync Up with Qua	ntity	
Sync Up with Price	& Shipping Postage	earn more
Forcing HTTPS to:	all Image URLs in item o	description
* Sync Up with Galler	y Pictures will take mor	e time.

a "New bulk job added" sign will appear, then you'll know that a bulk job will be running.

Listing Recommendation	Duplicated Listing	Listing without Stock	Listing without Datasheet		
New bulk job added.					

Please go to **Tools > Job Manager** to check the progress of the bulk task above.

When all listings are synced up to eBay, you will see a green check sign next to the task.

These steps will also resolve your External link & Active content problems in SoldEazy Listing Template, but if you are not using SoldEazy listing description template, or somehow the template settings became invalid, you might want to go to eBay back end and remove those contents directly on eBay.

If your account is under limitation, or the listing is ending soon, the sync up job might not be entirely successful, please modify them in eBay back end.
