EazyGallery Designer

1. How to set the display content of **EazyGallery**?
2. How to set the application scope of EazyGallery and apply it to the store template?

1. How to set the display content of **EazyGallery**
EazyGallery provide the cross selling opportunity to the seller. The different types of product listing information can be showed in the shop page via the carousel. It can enhance the chance of buyers purchasing.

- I. Login to the SoldEazy system and go to **Tools>Designer>EazyGallery** Designer.
Then, click <Add a Gallery> and you can see the following page

II. You can see the following page

Edit Gallery Template - 2020-07-10 11:27:40

Gallery Type: Item Gallery

Generate Type: Dynamic Version

Item Selection: Newly Listed

Theme Name: Clear-White

Scope to: Select

Save Save As Delete Cancel

III. Two types of Gallery: Item Gallery and Banner Gallery **Item Gallery**: Display different product listing to increase the chance of buyers purchasing another product

Banner Gallery: Display different custom banner to let the buyer know more about the shop news and the link

IV. Item Selection: **Item Selection** can set the display product types of

EazyGallery. There are 4 types:

Fully Random: Pick the Live Listing randomly

Newly Listing: Pick the recent listing product automatically according the system data

Hot Sold: Pick the most popular product **automatically according the**

system data

Item Specific: Base on the client needs and choose SKU to display on EazyGallery

Custom label:

+ Add More

You can fill in the Custom label with the SKU you want to display on **EazyGallery**.

You can click <Add More> to increase the custom label.

?If you want to display all the SKUs starting with "A", you can type A*

?If you want to display all the SKUs ending with "A", you can type *A

?If you want to display all the SKUs containing with "A", you can type *A*

PMKAT

The screenshot shows the eBay store template design interface. On the left is a preview window titled "Polybag ..." showing a store layout with a sidebar, a main content area with product images, and a footer with payment and trust seals. On the right are several configuration sections with toggle switches (ON/OFF) and gear icons for further settings. A red arrow labeled "4" points to the "Save & Apply" button at the bottom left. A red circle labeled "1" is around the "Eazy Gallery" section in the "Promotion Products" list. A red circle labeled "2" is around the "ON" switch for "Eazy Gallery". A red circle labeled "3" is around the gear icon next to "Eazy Gallery".
