EazyGallery Designer

1. How to set the display content of **EazyGallery**?
2. How to set **the application scope of EazyGallery and apply it to the store template?**

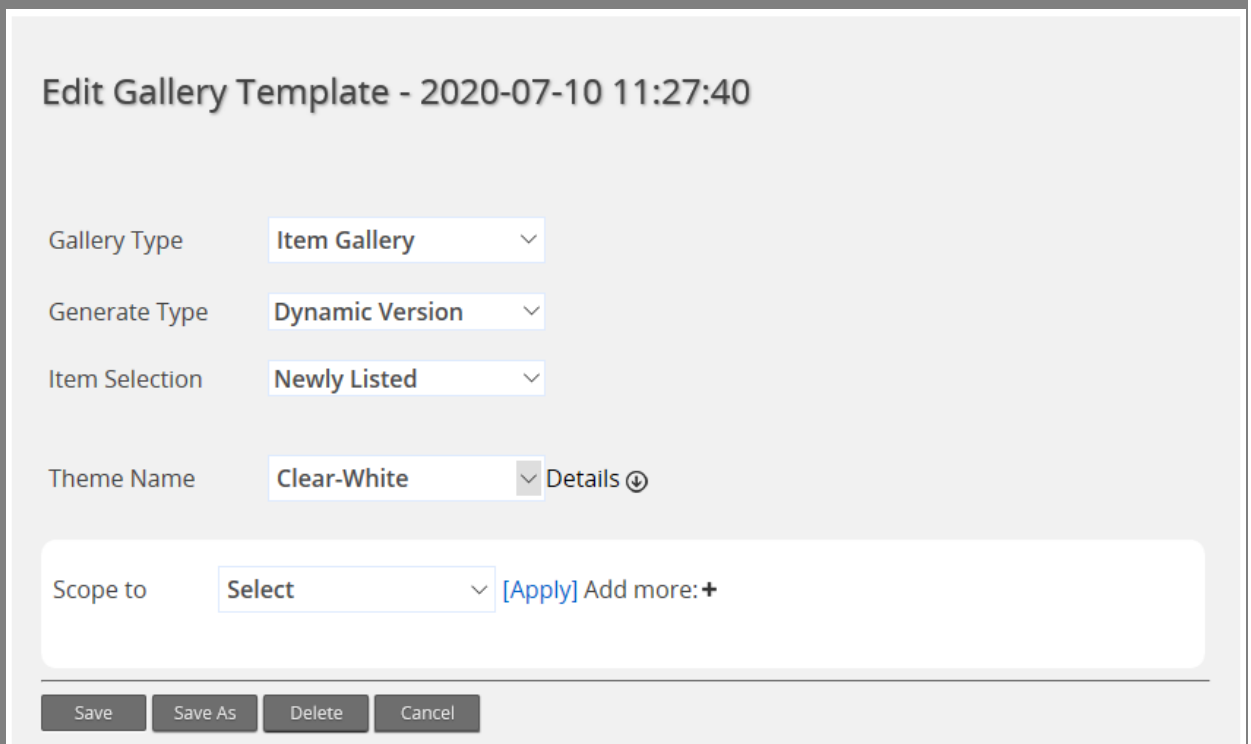

1. How to set the display content of **EazyGallery**
EazyGallery provide the cross selling opportunity to the seller. The different types of product listing information can be showed in the shop page via the carousel. It can enhance the chance of buyers purchasing.

- I. Login to the SoldEazy system and go to **Tools>Designer>EazyGallery Designer**. Then, click <Add a Gallery> and you can see the following page

II. You can see the following page

III. Two types of Gallery: Item Gallery and Banner Gallery **Item Gallery**: Display different product listing to increase the chance of buyers purchasing another product

Banner Gallery: Display different custom banner to let the buyer know more about the shop news and the link

IV. Item Selection: **Item Selection** can set the display product types of

EazyGallery. There are 4 types:

Fully Random: Pick the Live Listing randomly

Newly Listing: Pick the recent listing product automatically according the system data

Hot Sold: Pick the most popular product automatically according the

system data

Item Specific: Base on the client needs and choose SKU to display on EazyGallery

Custom label:

+ Add More

You can fill in the Custom label with the SKU you want to display on EazyGallery.

You can click <Add More> to increase the custom label.

?If you want to display all the SKUs starting with "A", you can type A*

?If you want to display all the SKUs ending with "A", you can type *A

?If you want to display all the SKUs containing with "A", you can type *A*

V. Theme Name: it can set the display style of EazyGallery including color, background and title text

2. How to set the application scope of EazyGallery and apply it to the store template?

I. The Gallery scope setting is below the setting page (Blue box)

Edit Gallery Template - 2020-07-10 14:55:39

Content Setting

Gallery Type	Item Gallery	▼
Generate Type	Dynamic Version	▼
Item Selection	Newly Listed	▼
Theme Name	Clear-White	▼ Details ⌵

Scope Setting

Scope to	Select	▼ [Apply] Add more: +
----------	--------	-----------------------

Save Save As Delete Cancel

II. Base on your needs to set the Gallery scope. After the selection, please click <Confirm>.

Item Selection	Select	Details ⌵
	HC-Australia	
	HC-Canada	
Theme Name	HC-eBayMotors	
	HC-France	
	HC-Germany	
	HC-HongKong	
Scope to	HC-India	
	HC-Italy	
	HC-Spain	
	HC-UK	
	[Apply] Add more: +	

Can choose the scope easily

Assign Gallery to

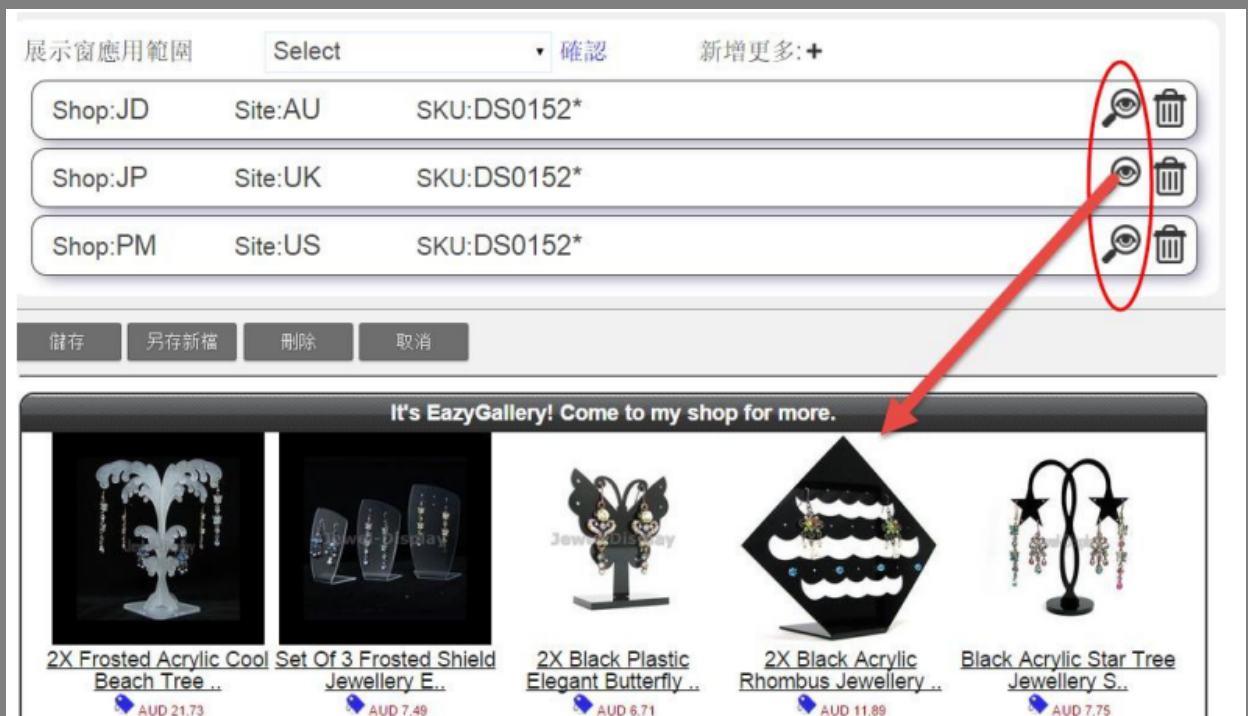

Assign Type	Ebay account	▼
Account Initial	Select	▼
Site No	Select	▼
SKU	<input type="text"/>	

For SKU, user can only input part of SKU for wild card search.
e.g "ABC*" = "ALL SKU" like "ABCXXX" would be selected.
e.g "*ABC" = "ALL SKU" like "XXXABC" would be selected.
e.g "*ABC*" = "ALL SKU contain" ABC like "XXXABCXXX" would be selected.

Confirm Cancel

Can set the scope in detail by yourself

III. You can click the magnifying glass logo on the right to preview the effect after finishing the setting.

IV. You can click <Save> and rename the EazyGallery after finishing the

EazyGallery information. If the store already turn on **EazyGallery** function, the setting will apply in the listing automatically after saving. No need to click synchronization.

V. You can click Scope View to see the immediate situation. If the system finds out two **EazyGallery** applying on the same SKU, the system will choose the most current saving as a priority.
