Link up PayPal account

1. Link up PayPal account
 1. Register PayPal developer account
 2. Create a private app for linking up use
 3. Input your private app token in SoldEazy
2. Frequently Asked Questions

* Only available for business PayPal accounts.

1. Link up PayPal account

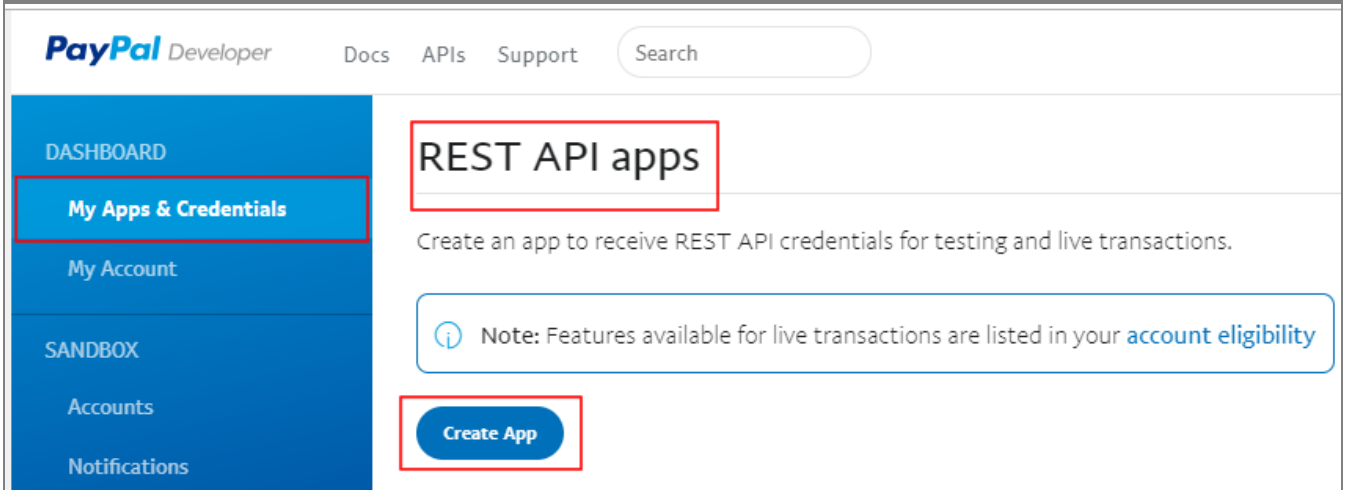

1) Register PayPal developer account

Go to <https://developer.paypal.com> and click on " Log into Dashboard ".

The screenshot shows the PayPal Developer dashboard. At the top, there is a navigation bar with the PayPal logo, 'Developer', and links for 'Docs', 'APIs', and 'Support'. A search bar is also present. On the right side of the navigation bar, there is a blue button labeled 'Log into Dashboard' with a red arrow pointing to it. Below the navigation bar, the main content area has a blue background with the heading 'Explore our payment products and solutions'. There are six cards arranged in a 2x3 grid, each with an icon and a brief description: 'Checkout' (Smart Payment Buttons), 'PayPal Commerce Platform' (global end-to-end payment solutions), 'Subscriptions' (consistent payment plan), 'Payouts' (send money to multiple recipients), 'Invoicing' (fast payment for professional invoices), and 'Accept card payments' (credit card on web, app, or in person). A 'See all docs' link is at the bottom right of this section. Below the main content area, there is a section titled 'Get the Smart Payment Buttons code' with a yellow 'PayPal' button, a blue 'PayPal CREDIT' button, and logos for VISA, Mastercard, AMEX, and DISCOVER. At the very bottom, it says 'Powered by PayPal'.

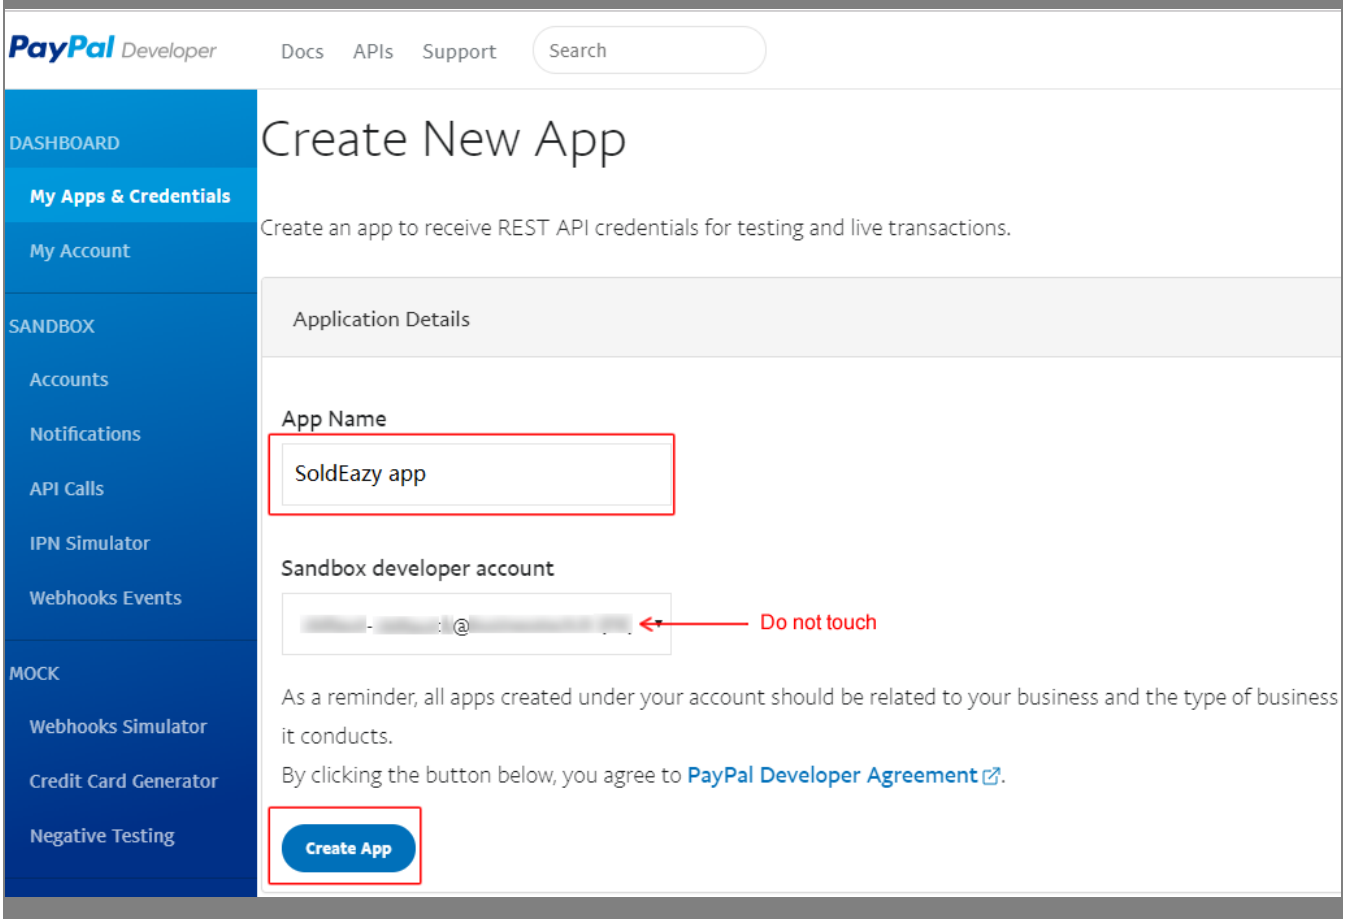

2) Create a private app for linking up use

In the left menu, check you are in the " My Apps & Credentials " tab and scroll down to the " REST API apps " section. Click " Create App ":

The screenshot shows the PayPal Developer dashboard. The left sidebar has a blue background with white text. The 'My Apps & Credentials' menu item is highlighted with a red box. The main content area has a white background. At the top, there's a search bar and navigation links for 'Docs', 'APIs', and 'Support'. Below that, the heading 'REST API apps' is enclosed in a red box. Underneath, there's a sub-heading 'Create an app to receive REST API credentials for testing and live transactions.' A blue box contains a note: 'Note: Features available for live transactions are listed in your account eligibility'. At the bottom, a blue 'Create App' button is highlighted with a red box.

Enter a name for your application, then click on "Create app" (do not touch the box "Sandbox developer account", it is an e-mail address created automatically by Paypal to allow you to access a test space, but you'll only need it for the app validation email, as explained below):

The screenshot shows the 'Create New App' page. The left sidebar is the same as in the previous screenshot. The main content area has a white background. At the top, there's a search bar and navigation links for 'Docs', 'APIs', and 'Support'. Below that, the heading 'Create New App' is displayed. Underneath, there's a sub-heading 'Create an app to receive REST API credentials for testing and live transactions.' A grey box contains the text 'Application Details'. Below that, there's a form with two fields: 'App Name' and 'Sandbox developer account'. The 'App Name' field contains the text 'SoldEazy app' and is highlighted with a red box. The 'Sandbox developer account' field contains a partially obscured email address and is highlighted with a red box. A red arrow points to the email address with the text 'Do not touch'. Below the form, there's a blue 'Create App' button highlighted with a red box. At the bottom, there's a note: 'As a reminder, all apps created under your account should be related to your business and the type of business it conducts.' Below that, there's a link to the 'PayPal Developer Agreement'.

Once the button "Create App" clicked you arrive on a test space (sandbox).

ATTENTION: first of all, it is imperative that you click on the " **LIVE** " button at the top right in order to move on the app publication area, otherwise it will not work on your website:

First of all, click the "Live" button

SoldEazy app

App display name: **SoldEazy app** 

LIVE API CREDENTIALS

Note that not all features are available for live transactions. Features available for live transactions are listed in your **account eligibility**.

Scroll down to the LIVE APP SETTINGS part and grant these access rights to SoldEazy, especially the last one.

App feature options

- Accept payments** Enable one-time and subscription payments. [Advanced options](#)
- Invoicing** Issue invoices for payments owed, manage partial balances due, and enable custom net payment terms.
- Payouts** Send batch payments to multiple PayPal accounts at once. You can vary the amount by recipient and select if you'd like it delivered by phone number or email.
- Customer Disputes** Use the PayPal Disputes API to list disputes, provide evidence, accept claims, show dispute details, and appeal disputes.
- PayPal Here** Process swiped/card-present card transactions.
- Log in with PayPal** Identity service that enables your customers to login with their PayPal login.
- Transaction Search** Access your PayPal transaction history.

* If the save button does not turn blue after you check the boxes, please try unchecking then re-checking these boxes, then you will be able to save the settings.

* Also the change on settings needs some time before they take effect, please wait for some time.

3) Input your private app token in SoldEazy

Click "Show" button under Client ID

2. Frequently Asked Questions

I.

Q: I have logged in the developer page, but I can not create Live credentials, PayPal asks me to "Upgrade account", what happened?

My apps & credentials

Sandbox

Live

 Your current account is limited. In order to process live transactions, we'll need some more information from you. [Upgrade account](#) 

A: This is because your account is a personal account, but not a business account, only business accounts can create credentials for Live mode.

My Account

Current account type: Personal

You may need to provide additional information to access some PayPal features.

| Capabilities | Developer Account | Personal Account | Business Account |
|---|-------------------|------------------|-------------------------|
| Access to Sandbox Integrate and test code in PayPal's testing environment | ✓ | ✓ | ✓ |
| Move money Shop online or send and receive personal payments | | ✓ | ✓ |
| Go live Manage live apps and process live transactions | | | ✓ |
| | | | Upgrade |
