Link up PayPal account

Link up PayPal account

1. Link up PayPal account
    1. Register PayPal developer account
    2. Create a private app for linking up use
    3. Input your private app token in SoldEazy
2. Frequently Asked Questions

* Only available for business PayPal accounts.
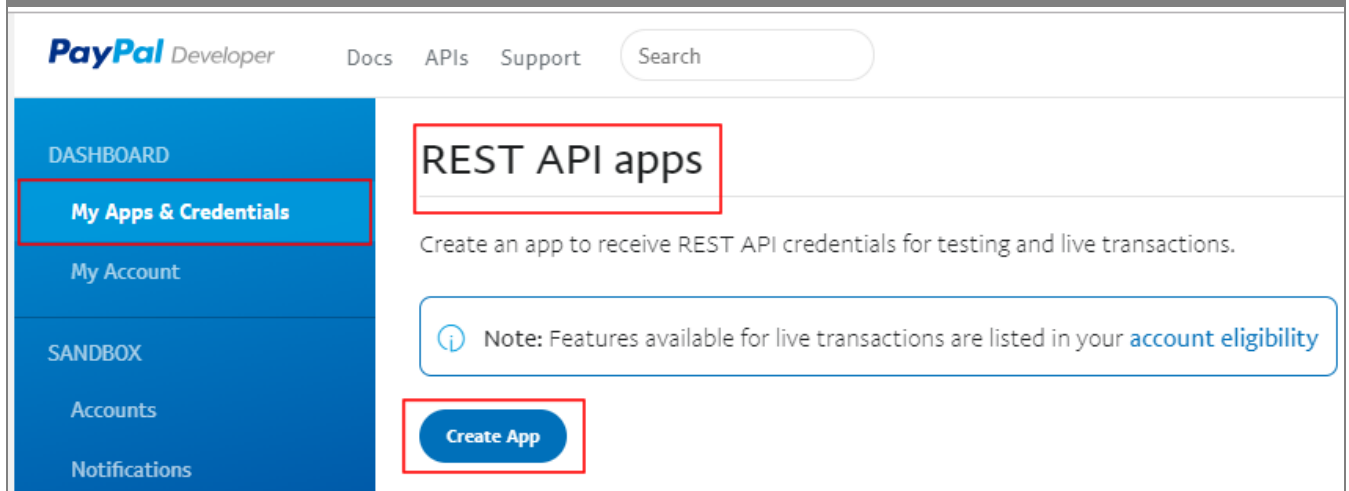

1. Link up PayPal account

1) Register PayPal developer account

Go to   https://developer.paypal.com   and   **click**   on "   **Log into Dashboard**   ".
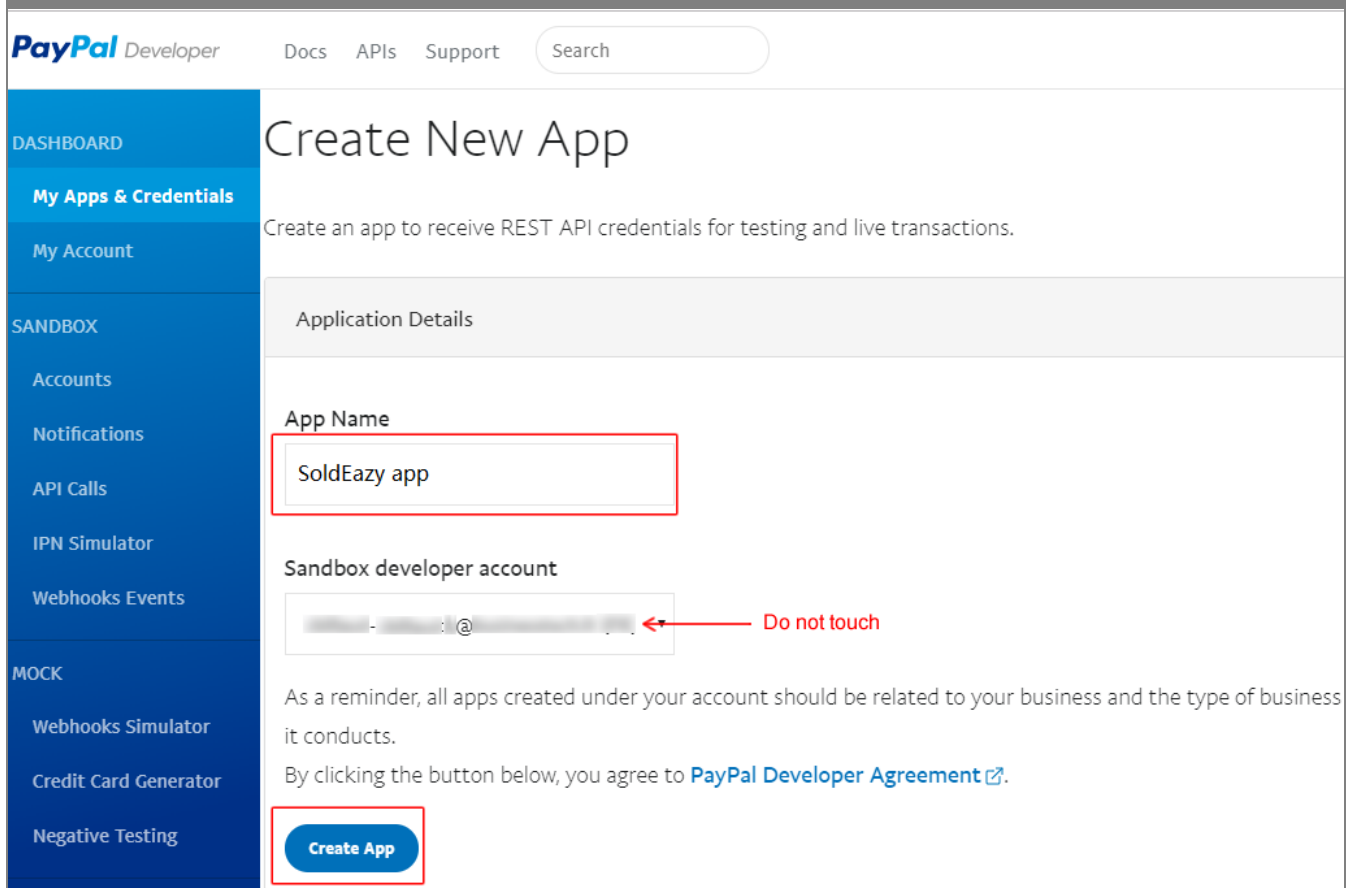

2) Create a private app for linking up use

In the left menu, check you are in the " **My Apps & Credentials** " tab and scroll down to the " **REST API apps** " section. Click " **Create App** ":

Enter a name for your application, then click on "Create app" (do not touch the box "Sandbox developer account", it is an e-mail address created automatically by Paypal to allow you to access a test space, but you'll only need it for the app validation email, as explained below):

Once the button "Create App" clicked you arrive on a test space (sandbox).

ATTENTION: first of all, it is imperative that you click on the " **LIVE** " button at the top right in order to move on the app publication area, otherwise it will not work on your website:

First of all, click the "Live" button

LIVE API CREDENTIALS

Note that not all features are available for live transactions. Features available for live transactions are listed in your **account eligibility.**

Scroll down to the LIVE APP SETTINGS part and grant these access rights to SoldEazy, especially the last one.

App feature options

☑ **Accept payments** Enable one-time and subscription payments. Advanced options

☑ **Invoicing** Issue invoices for payments owed, manage partial balances due, and enable custom net payment terms.

☑ **Payouts** Send batch payments to multiple PayPal accounts at once. You can vary the amount by recipient and select if you'd like it delivered by phone number or email.

☑ **Customer Disputes** Use the PayPal Disputes API to list disputes, provide evidence, accept claims, show dispute details, and appeal disputes.

☐ **PayPal Here** Process swiped/card-present card transactions.

☐ **Log in with PayPal** Identity service that enables your customers to login with their PayPal login.

☑ **Transaction Search** Access your PayPal transaction history.

* If the save button does not turn blue after you check the boxes, please try unchecking then re-checking these boxes, then you will be able to save the settings.

* Also the change on settings needs some time before they take effect, please wait for some time.

3) Input your private app token in SoldEazy

Click "Show" button under Client ID

2. Frequently Asked Questions

I.

Q: I have logged in the developer page, but I can not create Live credentials, PayPal asks me to "Upgrade account", what happened?

My apps & credentials

Sandbox   **Live**

ℹ️ Your current account is limited. In order to process live transactions, we'll need some more information from you. **Upgrade account** ↗

A: This is because your account is a personal account, but not a business account, only business accounts can create credentials for Live mode.

My Account

Current account type: Personal

You may need to provide additional information to access some PayPal features.

Capabilities	Developer Account	Personal Account	Business Account
Access to Sandbox Integrate and test code in PayPal's testing environment	✔	✔	✔
