

I have listed a lot of products, but my storefront seems empty?

Article Number: 886 | Rating: Unrated | Last Updated: Mon, Jun 28, 2021 5:04 PM

I have listed a lot of products,

but my storefront seems empty?

1. I have listed a lot of products, but my storefront seems empty?

Due to eBay website settings, if a viewer is using an IP that does not belong to the site country, the viewer will not be able to see listings in such storefronts.

eg: Chinese Mainland/ Hong Kong seller goes to his/her US store front, he/her will not see any listing.

If you want to be able to view listings in US stores, a VPN with US IP might be a good option for you.
