Link up Shopify in SoldEazy

1. Create a private app in Shopify
2. Link up your Shopify app to SoldEazy
3. Clone your eBay listing to Shopify

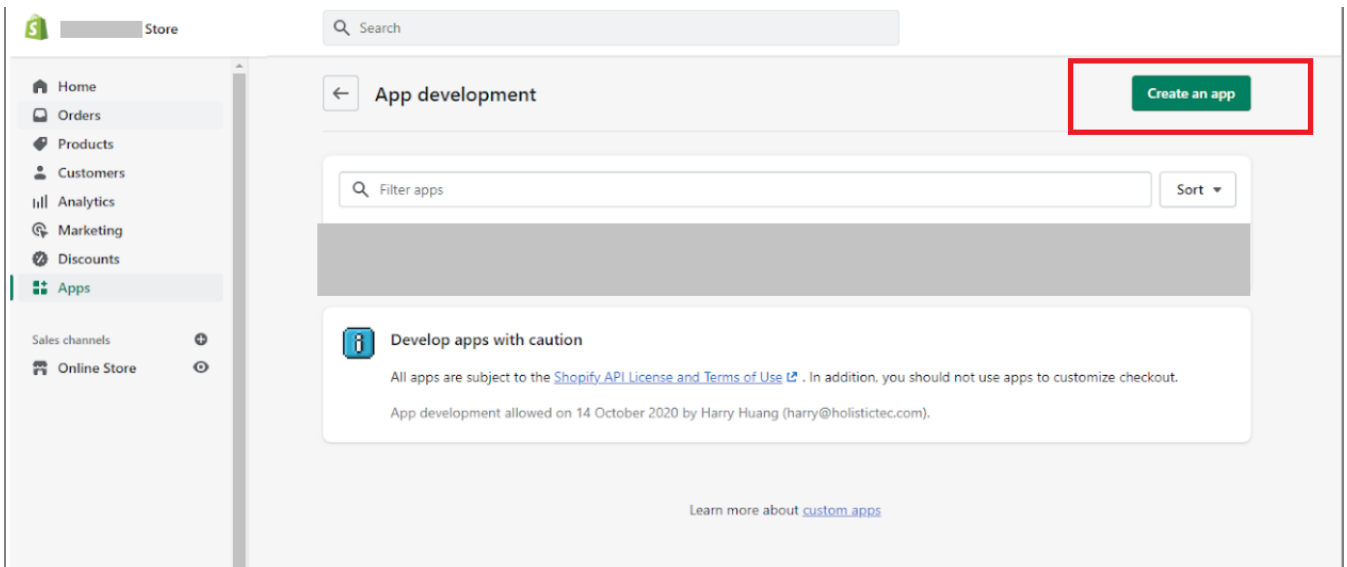

1. Create a private app in Shopify

Log in to your Shopify backend, click " Apps " in the left menu

The screenshot shows the Shopify Admin dashboard. On the left sidebar, the 'Apps' menu item is highlighted with a red box. The main content area displays the 'Apps' page, which includes a search bar, a 'Develop apps' button, and a 'Customize your store' button. Below these, there is a section titled 'Customize your store with the apps merchants love most.' with tabs for 'Recommended', 'Get customers', 'Find products', and 'Stand out'. The 'Recommended' tab is active, showing a grid of app recommendations such as 'Product Reviews', 'Facebook channel', 'Shopify Email', and 'Buy Button channel'. At the bottom of the page, there is a 'Private apps have moved' section with a 'Develop apps for your store' button and a 'Learn more' link.

Click " Create an app " and name your app

Go to **Configuration** tab, click “ **Configure** ” in “ **Admin API integration** ” section.

Check all Admin API access scopes and save.

Go to **API credentials** tab, click “ **Install app** ”.

The screenshot shows the 'API credentials' tab for an app named 'soldeazy'. At the top right, there is a green 'Install app' button. Below the navigation tabs (Overview, Configuration, API credentials, App settings), the 'API credentials' section is active. It contains two main panels. The first panel, 'Access tokens', has a sub-header and a message: 'You don't have any access tokens yet. To get your Admin API access token, install your app.' Below this message is a green 'Install app' button, which is highlighted with a red rectangular box. To the right of this panel is a warning box: 'Keep your access tokens secure. Only share them with developers that you trust to safely access your data.' Below the warning are three links with icons: 'Authenticate with access tokens', 'Start using the Admin API', and 'Start using the Storefront API'. The second panel, 'API key and secret key', has a sub-header and two input fields. The first is 'API key' with a text input containing a masked key and a copy icon. The second is 'API secret key' with a text input containing a masked secret key, an eye icon, and a copy icon. Below these fields is the text 'Created 21 Feb 2022 at 08:31 UTC'. To the right of this panel is a note: 'Use your client secret to [verify incoming webhooks](#)'.

Go to **API key and secret key** , copy " **API key** " & " **API secret key** ".
