

# 01 Attribute Class Maintenance

??ID??: 95 | ??: ??? | ????: Thu, Nov 30, 2017 10:36 AM

## Attribute Class Maintenance

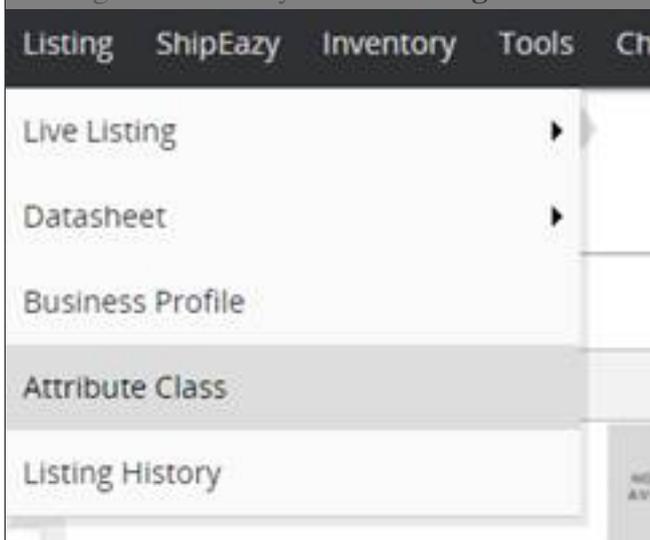

Detail Specifications	
Model :	None
Color :	Multi
Size :	2x2cm
Weight :	New

To show your products details clearly, you may add a table to the listing templates. The attribute class allows you to edit the title and content of the table easily.

1. How to create an Attribute class?

### How to create an Attribute class?

- I. Login to SoldEazy. Go to **Listing**> **Attribute Class**. Click the <[Create an Attribute Class](#)> button.

## Attribute Class

25 ▾

Attribute Class	Last Update at	Number of Attribute	
autumn dress	2015-10-05 09:29:29	2	
Camera_lens	2014-04-16 21:41:20	6	
Clothes	2015-08-20 11:52:46	5	

Create an

29 Records

II. Create a name for the attribute class. Fill out the customize attributes, including the displaying labels in the list

(Both labels are recommended to be the same for easy recognition). Click <Save> when you finished editing.

## Edit Attribute Class - demo\_fairdealtraderhk09

### General Settings

1

Attribute Class Name:

demo\_fairdealtraderhk09

2

Customize Attributes:

CSV Column Name	Display Label in Template	
		+
totalpower	Total Power	X
responsefrequency	Response Frequency	X
signaltoemoiseratio	Signal to Moise Ratio	X
distortion	Distortion	X
productsize	Product Size	X
withinamagneticspeakersize	Within a magnetic Speaker Si	X
speakerfeatures	Speaker Features	X
boxsize	Box Size	X
netweight	Net Weight	X
broadcombluetooth	Broadcom Bluetooth	X

III. Go to the <Description> section in the datasheet edit page. Choose the new attribute class you have just created attribute table.

IV. Click <Save> when you finished editing

V. Confirm that the attribute table has been added to the SoldEazy template:

VI. Click the <Sync> button to synchronize the new changes to the active listing. An attribute table has been added to

A professional Nail Art Gift for yourself or your girlfriend.

### Professional usage

Step 1. Clean Nails then trim nail surface as normal process.  
Step 2. Apply Base Gel first, polish -UV lamp (Necessary)  
Step 3. Apply polish directly, cure with UV lamp for minutes;  
Step 4. Coat with removable topcoat, more shiny, by UV lamp.

PLEASE NOTE THAT DUE TO LIGHTING EFFECT AND COMPUTER COLOR, THE ACTUAL COLORS MAY BE SLIGHTLY DIFFERENT FROM THE PICTURE

### Item included

Soak Off Polish x 1 ( Color as picture )

Item Specifics
