Error : A coupon with this 'couponCode' already exists. Please try a different 'couponCode'.

A coupon with this 'couponCode' already exists. Please try a different 'couponCode'.

Error :A coupon with this 'couponCode' already exists. Please try a different 'couponCode'.

The direct explanation of the error content is:

A coupon with this offer code already exists, please use a different Coupon Code.

reason:

1. The listing is already doing coupon activities, and multiple coupon activities cannot be performed at the same time;

2. Coupon campaigns cannot be assigned across accounts. For example, if the campaign has already assigned the listing of eBay account A, the listing of eBay account B cannot be assigned to it;

3. The coupon code has been used before and cannot be reused.

Solution:

Create a new coupon campaign and assign it to the listing of the same eBay account.
