

How to use eDIS

SpeedPAK to ship

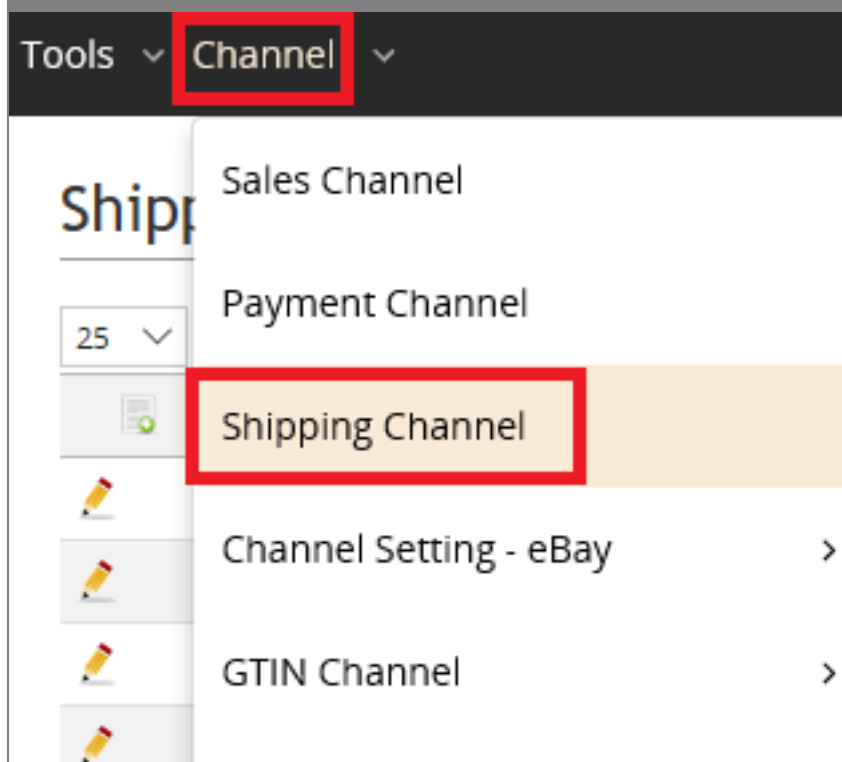

ID: 747 | : | : Thu, Nov 26, 2020 11:48 AM

How to use eDIS SpeedPAK to ship

1. Add the eDIS account
2. Set the default shipping address
3. Set the Package Profile

1. Add the eDIS account

Login SoldEazy and go to **Channel > Shipping Channel**

Click **Add a Shipping Channel**

Log in to <https://www.edisebay.com/>

Generate a developer ID and secret, then set order source to "sync with API"

Old interface:

The screenshot displays the eBay eDIS interface. At the top, there are navigation links for "订单管理" (Order Management) and "帮助中心" (Help Center). The left sidebar contains a menu with "开发者管理" (Developer Management) highlighted in orange. The main content area is titled "开发者管理" (Developer Management) and includes a "开发者ID" (Developer ID) field with a "private" label, a "Secret" field, and a "重置Secret" (Reset Secret) link. Below this is a "第三方开发者管理" (Third-party Developer Management) section with a "授权第三方开发者ID" (Authorize third-party developer ID) button. A large orange arrow points from the "开发者ID" field to the "Secret" field. The bottom part of the screenshot shows the "订单来源" (Order Source) settings. The left sidebar has "订单来源" highlighted in orange. The main content area is titled "订单来源预设 (必填)" (Order Source Preset (Required)) and includes a note: "注: 所有偏好设置均在再次登陆后生效" (Note: All preference settings take effect after logging in again). Below the note, it says "交易将通过以下方式加载至系统:" (Transactions will be loaded to the system in the following way:). There are two radio button options: "系统自动导入" (System automatic import) and "用户通过API同步" (User sync via API). The "用户通过API同步" option is selected and highlighted in orange, with a red note: "此选项为当前设定" (This option is the current setting). Below the options is a "保存" (Save) button. A large orange arrow points from the "系统自动导入" option to the "用户通过API同步" option.

new interface

2. Set the default shipping address

After the success of adding eDIS account, please go back to **Shipping** Channel page.

Then, click the gear button which is right side the added eDIS account and choose the default **eDIS shipping address**
