How to update VAT Rate in Listings

1. Update listing individually
2. Bulk Update via BULK-EDIT function
3. Bulk Update via Export and Import Excel/ CSV file

* Datasheet price is the after-tax price, adding VAT does not affect the listing price. You can revise datasheet price and sync up if you want to keep your profit margin

1. Update listing individually

a) Search the required listing, and click “Edit” icon

The screenshot shows a table with columns: Ref, Action, Status, Channel, Site, and Title. The first row is highlighted in blue. A red circle is drawn around the 'Edit' icon (a pencil) in the 'Action' column of the first row. A red arrow points from the circle to the 'Edit' icon.

You should set tax rate for listings according to the official VAT rates guidance on UK Government web site: <https://www.gov.uk/guidance/rates-of-vat-on-different-goods-and-services>

In case of any enquiry, you should consult a tax advisor for further information.
