Link up PayPal account

1. Link up PayPal account
 1. Register PayPal developer account
 2. Create a private app for linking up use
 3. Input your private app token in SoldEazy
2. Frequently Asked Questions

* Only available for business PayPal accounts.

1. Link up PayPal account

1) Register PayPal developer account

Go to <https://developer.paypal.com> and click on " Log into Dashboard ".

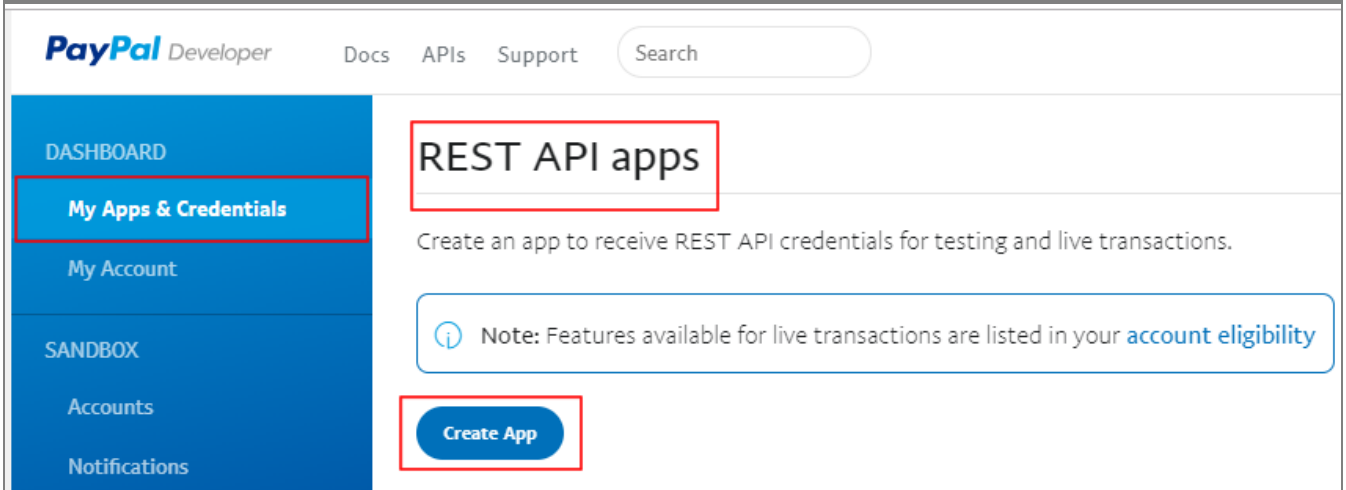

The screenshot shows the PayPal Developer website interface. At the top, there is a navigation bar with 'PayPal Developer', 'Docs', 'APIs', 'Support', and a search box. A red arrow points to the 'Log into Dashboard' button in the top right corner. Below the navigation bar, the main content area has a blue background with the heading 'Explore our payment products and solutions'. There are six cards arranged in a 2x3 grid:

- Checkout**: Help increase sales with Smart Payment Buttons.
- PayPal Commerce Platform**: Get our global, end-to-end payment solutions and technologies for marketplaces, e-commerce solution providers, and more.
- Subscriptions**: Get paid consistently with a subscription plan.
- Payouts**: Send money to many recipients at the same time.
- Invoicing**: Get paid fast when you send professional, customizable invoices from any device.
- Accept card payments**: Get paid by credit card on the web, in your app, or in person. See our payment options.

At the bottom of the main content area, there is a link 'See all docs'. Below this, there is a section titled 'Get the Smart Payment Buttons code' with a yellow 'PayPal' button, a blue 'PayPal CREDIT' button, and logos for VISA, Mastercard, AMEX, and DISCOVER. At the very bottom, it says 'Powered by PayPal'.

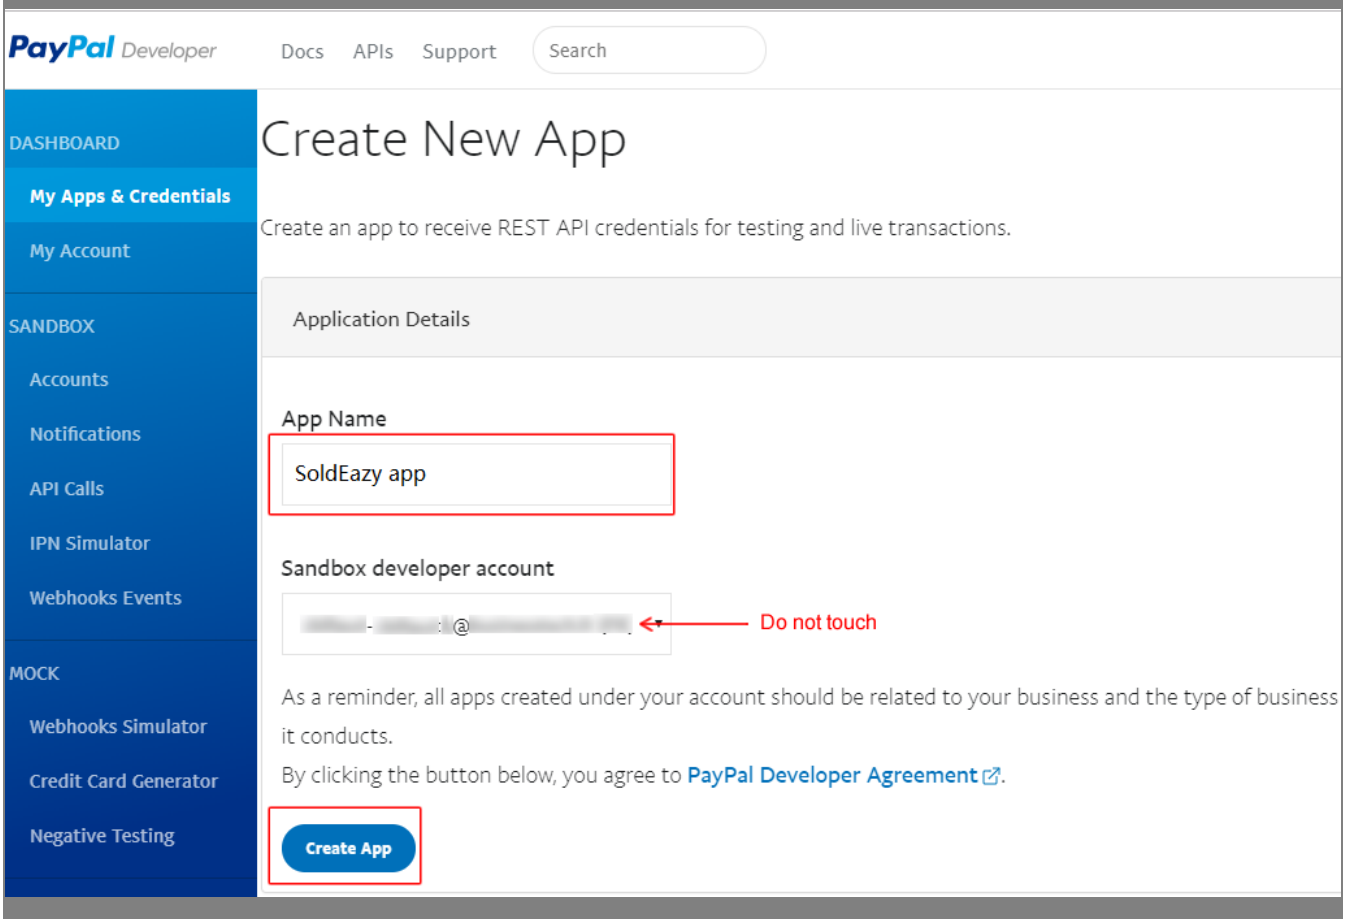

2) Create a private app for linking up use

In the left menu, check you are in the " My Apps & Credentials " tab and scroll down to the " REST API apps " section. Click " Create App ":

The screenshot shows the PayPal Developer interface. The left sidebar is blue with the following menu items: DASHBOARD, My Apps & Credentials (highlighted with a red box), My Account, SANDBOX, Accounts, and Notifications. The main content area has a white background. At the top, there is a search bar and navigation links for Docs, APIs, and Support. The main heading is "REST API apps" (boxed in red). Below it, the text says "Create an app to receive REST API credentials for testing and live transactions." There is a blue note box with an information icon that says "Note: Features available for live transactions are listed in your [account eligibility](#)". At the bottom, there is a blue "Create App" button (boxed in red).

Enter a name for your application, then click on "Create app" (do not touch the box "Sandbox developer account", it is an e-mail address created automatically by Paypal to allow you to access a test space, but you'll only need it for the app validation email, as explained below):

The screenshot shows the "Create New App" page in the PayPal Developer interface. The left sidebar is blue with the following menu items: DASHBOARD, My Apps & Credentials (highlighted with a red box), My Account, SANDBOX, Accounts, Notifications, API Calls, IPN Simulator, Webhooks Events, MOCK, Webhooks Simulator, Credit Card Generator, and Negative Testing. The main content area has a white background. At the top, there is a search bar and navigation links for Docs, APIs, and Support. The main heading is "Create New App". Below it, the text says "Create an app to receive REST API credentials for testing and live transactions." There is a section titled "Application Details" with a form. The "App Name" field contains "SoldEazy app" (boxed in red). The "Sandbox developer account" field contains an email address (partially obscured) with a red arrow pointing to it and the text "Do not touch". Below the form, there is a blue "Create App" button (boxed in red). At the bottom, there is a reminder: "As a reminder, all apps created under your account should be related to your business and the type of business it conducts." and a note: "By clicking the button below, you agree to [PayPal Developer Agreement](#)".

Once the button "Create App" clicked you arrive on a test space (sandbox).

ATTENTION: first of all, it is imperative that you click on the " **LIVE** " button at the top right in order to move on the app publication area, otherwise it will not work on your website:

First of all, click the "Live" button

App display name: **SoldEazy app** 

LIVE API CREDENTIALS

Note that not all features are available for live transactions. Features available for live transactions are listed in your **account eligibility**.

Scroll down to the LIVE APP SETTINGS part and grant these access rights to SoldEazy, especially the last one.

App feature options

- Accept payments** Enable one-time and subscription payments. [Advanced options](#)
- Invoicing** Issue invoices for payments owed, manage partial balances due, and enable custom net payment terms.
- Payouts** Send batch payments to multiple PayPal accounts at once. You can vary the amount by recipient and select if you'd like it delivered by phone number or email.
- Customer Disputes** Use the PayPal Disputes API to list disputes, provide evidence, accept claims, show dispute details, and appeal disputes.
- PayPal Here** Process swiped/card-present card transactions.
- Log in with PayPal** Identity service that enables your customers to login with their PayPal login.
- Transaction Search** Access your PayPal transaction history.

* If the save button does not turn blue after you check the boxes, please try unchecking then re-checking these boxes, then you will be able to save the settings.

* Also the change on settings needs some time before they take effect, please wait for some time.

3) Input your private app token in SoldEazy

Click "Show" button under Client ID

2. Frequently Asked Questions

I.

Q: I have logged in the developer page, but I can not create Live credentials, PayPal asks me to "Upgrade account", what happened?

My apps & credentials

Sandbox

Live

 Your current account is limited. In order to process live transactions, we'll need some more information from you. [Upgrade account](#) 

A: This is because your account is a personal account, but not a business account, only business accounts can create credentials for Live mode.

My Account

Current account type: Personal

You may need to provide additional information to access some PayPal features.
